

## ET 02 SOLID ELECTRICAL INSULATING MATERIALS AND INSULATING SYSTEMS

### SCOPE

To prepare standards:

- on solid electrical insulating materials.
- on guiding principles and on the philosophy of evaluation of insulation systems in general
- for functional test programmes and methods intended for evaluation of possible insulation systems and their suitability for use in electrical equipment.
- for classification of insulation systems based upon their capability to withstand the complex of the most important service determined by the conditions of the use of insulation in equipment.
