

ETD 39
FUSES

To prepare standards regarding specification for all types of fuses, with the object of determining

- a) The characteristics which are essential in specifying the conditions for installation and operation of the fuses
- b) The requirements to be met by the fuses and the tests designed to ascertain their compliance with such requirements as well as the procedures to be followed for these tests
- c) Markings

To prepare for these fuses standards, standard values of:

- 1) Characteristics, rated voltages, currents and breaking capacities:
- 2) Dimensions in connections with the fixing and inter change ability of high voltage and low voltage fuses
