Foreword

BIS being the National Standards Body of India has the onus of leading the Standardization activities in the nation, BIS has taken up a monumental task of mapping of applicable Indian Standards to government schemes/missions run by various ministries. Extensive brainstorming exercise was done by officers of Standardization and Certification departments to map more than 3200 Indian Standards towards 75 government schemes/missions panning across 29 Ministries/Departments of Government of India.

Following key advantages are envisaged through this exercise:

- ☐ Products procured by Central/State Government Departments for implementation of schemes are of right quality and adhere to Indian Standards.
- ☐ Wherever there are certain processes/services involved, the executive departments follow right code of practices.
- ☐ In case of certain products/processes/services for which Indian Standards are not available; such gap areas are identified in timely manner and respective technical committees can take up the matter for formulation of standards on such areas.
- ☐ Standards and quality culture is imbibed in central/state government departments across all levels, as adherence to Indian Standards fosters a culture of quality and reliability within government departments.
- ☐ For future schemes/missions government departments can proactively get involved with BIS for providing the necessary assistance pertaining to standardization needs related to upcoming schemes/missions.
- ☐ This will assist Ministries in preparing Annual Work Programme for Standardization.

The Indian Standards for each scheme mission have been classified into two broad categories:

- ☐ Product Standards
- ☐ Other than Product Standards

For each of these broad categories we have further identified:

- ☐ Standards Available
- ☐ Standards Under Development
- ☐ Areas Identified for Standardization in Future

Furthermore, mandatory standards under Quality Control Order (QCO) have been marked in dark shades.

About the Scheme/Mission

The National Health Mission (NHM) in India aims to achieve universal access to equitable, affordable, and quality healthcare. While earlier phases focused on reproductive and child health and communicable diseases, there is a need to address the increasing burden of chronic diseases. The low utilization of public health systems for common ailments, coupled with a predominant reliance on the private sector, highlights the importance of strengthening primary healthcare. The establishment of Health and Wellness Centres (HWCs) as part of Ayushman Bharat and the commitment to primary healthcare funding are key steps towards comprehensive primary healthcare delivery and achieving universal health coverage.

PM Swasthya Suraksha Yojana-PMSSY

(PM Health Protection Scheme)

Ministry of Health and Family Welfare

About the Scheme/Mission

The Pradhan Mantri Swasthya Suraksha Yojana (PMSSY) was launched in 2003 to address regional imbalances in healthcare and enhance medical education in India. It consists of two components: setting up new AIIMS institutions and upgrading government medical colleges/institutions. Under the first component, 22 new AIIMS have been announced, with 6 already functional and 16 approved. The second component involves the upgradation of various government medical colleges, adding super specialty departments, PG seats, and additional beds. A total of 75 projects have been considered under different phases of upgradation. These initiatives aim to improve healthcare access, medical education, and research capabilities in the country.
