NITS, Noida

**NATIONAL INSTITUTE OF TRAINING FOR STANDARDIZATION
BUREAU OF INDIAN STANDARDS**

**Ministry of Consumer Affairs, Food & Public Distribution
Government of India**

About BIS

Bureau of Indian Standards (BIS) being the National Standards Body of the country discharges multitude of functions and services for enhancing the quality ecosystem in the country. The activities of BIS include standards formulation at national and international level, conformity assessment schemes (Product Certification, Systems Certification, Registration and Hallmarking), testing and training. All these activities are carried out through their network of offices at its headquarters, regional and branch offices and labs spread throughout the country.

About NITS

National Institute of Training for Standardization (NITS), the training arm of BIS, was set up under the aegis of BIS in 1995 to meet the growing needs and expectations of the industry for quality training in the fields of standardization, quality assurance, management systems, certification, laboratory testing, etc.

Since then, NITS has been organizing various types of training programmes for industry as well as for consumer bodies and common man. NITS has also been organizing various International Training Programmes for Developing Countries of Asia, Africa, Europe and Latin & South America. The programmes are conducted by a team of well-experienced, qualified and trained faculty.

The annual Training Calendar for FY 2025-26 can be accessed via the following link: -
<https://www.bis.gov.in/training-2/annual-training-calendar/>

On many occasions, NITS client organizations require training courses customised for their officers/staff and conducted at their premises/online. NITS caters to these requirements by imparting the training at the premises of the clients on request. Such customized programmes conducted on specific request of client organizations at their premises/online are called as 'Off-Campus Programmes'.

Over the years has acquired the reputation of being the leading institute in the country offering trainings in the field of standardization, conformity assessment and quality. NITS has served various organizations from Ministries/Departments of Govt of India and State Govts, PSUs, private organizations, consumer organizations as well as individual professionals.

What is IS/ISO/IEC 42001?

- IS/ISO/IEC 42001 is an international standard that specifies requirements for establishing, implementing, maintaining, and continually improving an Artificial Intelligence Management System (AIMS) within organizations. It is designed for entities providing or utilizing AI-based products or services, ensuring responsible development and use of AI systems.

Why is IS/ISO/IEC 42001 important?

- IS/ISO/IEC 42001 is the world's first AI management system standard, providing valuable guidance for this rapidly changing field of technology. It addresses the unique challenges AI poses, such as ethical considerations, transparency, and continuous learning. For organizations, it sets out a structured way to manage risks and opportunities associated with AI, balancing innovation with governance.

Key benefits

- Framework for managing **risk** and **opportunities**
- Demonstrate **responsible use of AI**
- **Traceability, transparency** and **reliability**
- **Cost savings** and **efficiency gains**

Objective

The IS/ISO/IEC 42001 standard offers organizations the comprehensive guidance they need to use AI responsibly and effectively, even as the technology is rapidly evolving. Designed to cover the various aspects of artificial intelligence and the different applications an organization may be running, it provides an integrated approach to managing AI projects, from risk assessment to effective treatment of these risks.
