SAFER PRODUCTS | STRONGER INDUSTRIES | CLEANER ENERGY | GREATER CONSUMER CONFIDENCE

ABOUT THE CONCLAVE

The Standards Electra Conclave 2026 is being organized by the Electrotechnical Department (ETD) of the Bureau of Indian Standards to unite policymakers, industry leaders, standardization experts, research institutions and consumer organisations.

The conclave aims to strengthen the Technical Committees with participation of more experts in view of the technological advancements and recent developments in the Electrotechnical Sector with special focus on domains of Grooming Products & Personal Care Appliances, Insulators & Capacitors, Renewable Energy, and Power Quality. It also encourages new experts to contribute in the field of standardization and seeks inputs from industry and Academia to improve the standardization framework.

PROGRAMME OBJECTIVES

- Identify new areas for standardization in key electrotechnical domains.
- Onboard and engage new experts to augment the existing standardization framework.
- Seek inputs from Industry, Academia and R&D institutions to bring best practices and innovation into standardization.
- Strengthen engagement with stakeholders for continuous improvement in standardization practices.

TARGET AUDIENCE

Industry & Industry Associations
SAMA, CEAMA, ELCINA, ELCOMA, IEEMA, MSME associations and domestic manufacturers.

Government & Regulatory Bodies
Ministry of Consumer Affairs, Department for Promotion of Industry and Internal Trade (DPIIT) and state directorates.

Academia & Research Institutions
Testing laboratories and MoU partner institutions.

FOCUS AREAS

The following four areas have been identified for discussion during Standards Electra 2026:

01 Grooming Products and Personal Care Appliances

02 Insulators and Capacitors

03 Renewable Energy

04 Power Quality

EXPECTED OUTCOMES

- A collaborative platform for Industry, Academia and Technical Experts.
- Actionable Inputs to Improve Standardization in Key Domains
- Support from BIS to Take Forward the Inputs Offered in the Standardization Domain.
- Nomination of experts in relevant Working Groups/ Panels as required.

REGISTRATION

SCAN TO REGISTER

- The registration link for attending the Standards Conclave is https://forms.gle/mJsWwbviTuAVfmmP8
- Participation in the conclave is permitted only through prior registration, followed by confirmation from ETD.
- Academia may mention the details of their research on the topics being discussed in the conclave to give a presentation in the breakout sessions.
